## 70 BULLS ON OFFER

KANDANGA VALLEY JESUIT

KANDANGA VALLEY YAHOO

KANDANGA VALLEY CHABLIS (P)

Welcome friends to our 5th on property 'Summer' sale to be held at Warravale in the picturesque Kandanga Valley. Commencing at 10am (to beat the heat) we will present 70 beefy young bulls for your competition.

All reared on ticky, coastal country and prepared correctly ready to work in diverse environments. Noted for their survivability and do-ability these Kandanga Valley bulls have seen a couple of crazy years from being born in water to trying to grow through the driest year we've recorded in our 51 years at Warravale. These tough boys have plenty of constitution.

On offer are 40 Charolais and 30 Charbray bulls with over 50% polled or scurred. This year also all bulls will be semen morphology tested just 3 weeks prior to sale, so you can take your purchase home and feel completely confident with his semen quality.

A triumph for us this year was winning the most profitable animal in the 2024 Gympie Carcass Classic. The heifer sired by Kandanga Valley Lauchie, had a daily weight gain of 2.429kg and a net gain in value of \$347.58, with a total change in value of 106% after 84 days on feed. Congratulations also to our many clients who have done well in carcass comps, shows, and weaner show and sales around Queensland this year. Roz and I get a real buzz when we see Charolais and Charbray cattle winning competitions and we're very proud to have contributed to your success with our genetics.

As we wait for some decent rain to improve the outlook as I write this welcome, I personally think the Australian cattle industry is in for a strong 2025, as long as we can get a decent wet season. Our overseas markets are strong and this dry spell now is reducing numbers across the country so prices should lift considerably into the new year.

We consider our Kandanga Valley sales to be very good value for money, with 44 bulls at our August sale selling for \$7000 or less. We always line up sound, not overfed bulls that will go straight out to do their job and this line-up is no different.

We welcome prior inspections and all bulls will be available on video at least one week prior to sale, along with scans and semen results.

Looking forward to catching up on Saturday December 7th.

Yours sincerely,  
*John Mercer*

# About Us & Stud History

Both the Kandanga Valley Charolais and Charbray studs were established in 1988. The first Charolais cattle at Kandanga were purchased by John's parents, Kev & Joan, in 1973 and there has been a Charolais infusion in the Kandanga Valley herd since those early days.

John and Roz purchased Warravale, Kandanga, from John's parents in 1986 and have since owned a Central Queensland property and properties in the Tansey and Gympie district plus agisted properties west of Gympie. Now having sold all of our Tansey grazing country we have secured a very nice property at Moonie on the western downs where most of our Charolais females now run.

We have raised four great children, Wade, Kate, Nick & Brooke and are now proud grandparents to an ever increasing group of fine, good looking offspring.

The first registered Charbray cattle were purchased in 1979 at the Nahrunda Stud dispersal at Gympie. The tremendous growth and easy doing ability of these first Charbrays, with the added benefit of tick resistance, convinced us that Charbray cattle were the most profitable in our environment and probably most other environments as well. Their saleability at fat or store markets is second to none in Queensland.

We now put a heavy emphasis on breeding generation bred (purebred) Charbrays for a much better consistency of progeny to hit the ground.

Early stud Charolais breeders were purchased from numerous high profile studs plus smaller herd dispersals back in the eighties. Since then we have bred heavy muscled, soft fleshed French type cattle with an eye on all the traits required to perform in Queensland conditions. Traits like fertility, milk, growth and muscling rank very highly in our selection criteria. Our herd is run very similar to any commercial herd with poor performers being culled quickly.

Having access to such a large number of stud females has allowed us to be very selective within our herd and we think the bulls offered during this time reflect this as do their very positive EBV figures.

We are now running in excess of 1300 registered stud cattle, down from a peak of around 1700. We have put a big emphasis on fertility and productivity over the last few years as we have wound our herd back to a more manageable level.

# About The Sale Bulls

## CHAROLAIS

Once again, our Charolais line up is very consistent and even. If you prefer functional, well-muscled Charolais bulls that aren't over prepared and are ready to work, these beefy young bulls are just what you need.

Grown out last year through the driest year we've seen here in the 51 years we've lived at Kandanga, these bulls have performed exceptionally well once they got into sale preparation.

This group of Kandanga Valley bulls have very good feet and leg structure plus good tidy sheaths and strong masculine heads and of course all display that excellent Kandanga Valley style muscling.

Sired by 1100 - 1200kg sires and out of 700-800kg dams, the genetics for growth and muscling are well and truly locked in.

Plus we know the calving record of every cow in our herd and we can assure you fertility in our cow herd is paramount. These bulls are bred to perform.

24 of the 40 offered are polled, but in our polled breeding program we've focused on maintaining muscling and performance and strong masculine heads on our bulls and milky females with good tidy udders.

Once again, we have Charolais bulls here by the ever consistent, high performing Allednaw Prince (polled) and the well proven easy calving Minnie-Vale Nouveau (poll/scur) plus newer sires that are really impressing us – Ascot Quorum (polled), Moongool Qadir (polled) and for that extra muscling ANC Guinness's Quart (polled).

This year we will be semen motility and morphology testing all bulls 3 weeks prior to sale plus all the usual scans and weight etc will be available one week prior to sale.

All bulls were vaccinated with 7-in-1 as calves, 3-day sickness, 3-germ blood and Vibrio as yearlings and have had a 3-day booster prior to sale date.

Sale bulls are used to being mustered using buggies, bikes, dogs and horses. Videos are available on our website at least one week prior to sale.

## CHARBRAY

Of the 30 quality Charbray bulls on offer 14 are polled or scurred and we think there are some really nice bulls on offer that will stand up to a close scrutiny. The Charbray bulls have had a shorter sale preparation than the Charolais and will be just hitting their straps by sale day. Their catalogue photos may be just a little premature but come along to the sale and you will be impressed.

If you're looking for flatback bos indicus bulls with meat and muscling, tidy sheaths, great legs and feet (for longevity) plus performance and constitution, why look anywhere else?

Some sires represented here that have been well accepted in the past are Trifecta Prince (poll/scur), Hazelton Miner (a red, pink nosed Brahman bull), and the ever reliable Kandanga Valley Lauchie (now 9 years old and still breeding on), Kandanga Valley Panama Pete and our EKKA Grand Champion Kandanga Valley Jesuit just represented by the one big impressive individual that is a great example of what these young bulls will grow into with a bit more time.

Bred and reared on the coast in heavy tick population country, these boys are set up and ready to roll in any environment.

Kandanga Valley Charbray bulls are bred with plenty of muscle power to do the job in country where a pure Charolais bull will struggle. That has been our focus in our Charbray breeding program for 40 years.

All bulls have had the same vaccination program as the Charolais and come with scans and weights etc as described previously, along with semen motility and morphology results.

All bulls are used to horses, dogs, buggies and bikes.

(a) **PAYMENT** - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidders' offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated and until property shall pass, the purchaser shall hold such lot as Bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-
    - (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
    - (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the AMBA Bill Rate and two percentum. For the purposes of this condition, the expression "The AMBA Bill Rate" is the rate published by the Australian Merchant Banker's Association in good faith as at the date of the sale as its Bill Rate for 180 day Bills of Exchange expressed as a percentage per annum. If at any time the AMBA Bill Rate becomes unavailable for any reason, the auctioneer shall determine and advise the purchaser for the interest rate to apply for the purpose of this condition.
  - (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.
  10. If the purchaser shall neglect or fail to comply with any of the within conditions any lot purchased by him may be immediately resold by Public Auction or Private Contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
  11. Any vendor or purchaser removing the Sale Number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damages should the lot be wrongly delivered.
  12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions and shall jointly and severally carry out and perform sale.
  13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however that this condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
  14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf, for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.
  15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.
  16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trades Practices Act or any applicable State legislation which cannot be contractually these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby executed. The auctioneer is not liable in respect of any error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
  - (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to remain with the vendor.
  17. In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser, and the auctioneer, while he shall use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions.
  18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
  - (b) If any vendor brings to the premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right in its absolute discretion, to exclude from the sale venue or dispose of any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
  19. **DELIVERY.** Except at the discretion of the auctioneer, no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer, pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
  20. In these Conditions:-
    - (a) References to "auctioneer" shall be taken to mean as the contest so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot.
    - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1.
    - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm.
    - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.
- IMPORTANT NOTICE** The Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.
- All persons who attend the sale do so entirely at their risk and the Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.
